GROUNDS ACCESS

GROUNDS ACCESS RULES JULY 18-21

To improve safety, security, and mobility in the final hectic days before AirVenture opening day, these policies and procedures will be in place from Thursday, July 18, through Sunday, July 21.

GROUNDS ACCESS

Entry will be allowed to credentialed vehicles ONLY through Gate 33 (Waukau Avenue), Gate 37 (Knapp Street/Warbirds), and Gate 26 (Knapp Street/Theater in the Woods). Other vehicle gates will be closed. Noncredentialed vehicles are NOT allowed on the grounds, the same as during AirVenture week. Personal golf carts, scooters, bicycles, and other such vehicles are also prohibited. The restricted area (shown on map) will be enforced to ensure safety for everyone involved as AirVenture preparation is underway.

Exhibitors and vendors within the restricted area will receive special pre-event lanyard credentials. While early AirVenture attendees — such as those arriving with their aircraft — will not require wristbands until Sunday, July 21, they are asked to avoid entering the restricted area. Noncredentialed volunteers will be allowed onto the grounds ONLY to pick up credential packets from their chairmen. EAA security will be present in the restricted area. Noncredentialed vehicles will be asked to leave.

Exhibit Hangars and Aviation Gateway Park Setup Access: Thursday, July 18, through Sunday, July 21, there will be strict enforcement of access to Exhibit Hangars A-D and Aviation Gateway Park. Only credentialed exhibitors and vendors are allowed in these areas during setup hours from 8 a.m. until 6 p.m. on those days. At 6 p.m. sharp, doors in these areas will be locked.

Outdoor Exhibit Setup Access: From Thursday, July 18, through Sunday, July 21, there will be strict enforcement of access to outdoor exhibit areas. Access is limited to credentialed exhibitors and vendors, and only between the hours of 7 a.m. and 8 p.m.

Exhibit Show Hours: Exhibits are not open until Monday, July 22. Visitors on the grounds before that time are asked to give space to allow exhibitors to finish setting up their areas and to exercise caution anywhere around the outdoor exhibit areas due to the presence of equipment used to prepare the areas for the fun hustle and bustle of AirVenture.

VISITOR SERVICES

NOTICE TO AIRVENTURE ATTENDEES

Snowbirds Crowd Line – Friday, Saturday, and Sunday, July 26-28

Attendees, volunteers, and pilots should be aware that the Snowbirds performances require a larger aerobatic box, necessitating a slight move of the crowd line to the west during the afternoon air shows on those days. Only essential, authorized air show personnel are permitted inside the box during the Snowbirds performance.

The Snowbirds crowd line will run the entire length of the flightline from Ultralights through Warbirds, in line with the existing speaker poles, about 120 feet west of the regular crowd burn line. This line will be clearly marked.

For air show spectators

Visitors will have access to the regular crowd line area until 1:15 p.m. on Friday and Saturday and until noon on Sunday. At those times, visitors must move back to behind the Snowbirds crowd line. AirVenture guests will not be allowed to leave chairs, blankets, coolers, or other items past the Snowbirds crowd line at any time on those days. Friday through Sunday, Wittman Road will be closed to all vehicular traffic, providing additional space for air show viewing.

For pilots and crew of aircraft parked on the flightline

After 1:15 p.m. on Friday and Saturday and noon on Sunday, pilots or crew of aircraft parked between the two crowd lines will be allowed in the area for a short time with a security escort to perform urgent, essential tasks. Everyone will need to be out of this area by 4:30 p.m. on Friday and Saturday and 2:45 p.m. on Sunday.

Full access will be restored after the completion of the Snowbirds performance on Friday, Saturday, and Sunday. Look for extensive signage on the grounds further explaining the areas and times covered by these necessary rules and guidelines.

Text OSHALERT to 1-855-485-5674.

(Available for United States and its territories only.)

Weather Watch

A watch means that conditions are favorable for severe storm/tornado development.

- Secure items that could be blown away in high winds.
- Be prepared to unplug your electric cord from the electric pedestal.
- If camping by your aircraft, make sure it is tied down securely.

Weather Warning

A warning means that dangerous weather is threatening the area.

Severe Thunderstorm Warning

- Take shelter in your camper or vehicle.
- If a shelter or vehicle is not available, find a low spot away from trees, fences, and poles, but make sure the spot is not prone to flash flooding. If you cannot avoid trees, try to stay close to shorter trees. Cover your head with your hands and lie down on the ground.

Tornado Warning

- Find a ditch, depression, or low area and lie down, covering your head with your hands.
- As a last choice, secure yourself in your vehicle, with the vehicle running so the air bags can be deployed. Keep your head lower than the vehicle windows and covered.

Severe Weather Shelter

Should a weather emergency occur, anyone seeking shelter can go to the EAA Aviation Museum. If the weather emergency leads to an evacuation of the grounds, buses will transport those seeking shelter from all Red One Markets and Camp Scholler shower houses to the EAA Aviation Museum.

Accessibility

- RV/disabled-accessible camping areas for those requiring 24-hour operation of auxiliary generators are available on a first-paid, first-served basis.
- Accessible restrooms are available at three campground shower facilities.
- An accessible bus circulates throughout the campground.
- Disabled placards must be displayed on camping unit.

Campfires and Firewood

The Wisconsin Department of Natural Resources asks that all campground firewood be left at home and purchased near your campsite location.

Firewood should be obtained within 10 miles of where you plan to use it. Fines for transporting firewood across state lines are heavily enforced.

- Firewood is available for purchase at campground stores and local convenience stores.
- Do not leave campsite areas without completely extinguishing campfires.

Generators

- No generator operation from 10:30 p.m. to 6:30 a.m. (except in designated 24-hour area).
- Camping units in 24-hour generator areas must be positioned perpendicular to fire lanes.
- **No tents** are allowed in the 24-hour auxiliary power area.

Basic Campsites

- All basic campsites are on a first-paid, first-served basis. Sites may be purchased online at AirVenture.org or at the Camper Registration building. EAA members pay from their arrival date through the end of AirVenture and may not stake out a spot in advance.

TIME TO UPGRADE

DELTAHAWK
POWER REIMAGINED®

info@deltahawk.com | Racine, WI | www.deltahawk.com

CAMPING

- Only one tent per airplane, unless a second tent is needed for immediate family members, in which case it must fit within the footprint of the aircraft.
- Generators are allowed in the North 40 camping area. Engine-driven generators may only be operated between 6:30 a.m. and 10:30 p.m.
- Aircraft engines may not be started at the campsite. On departure, aircraft must be pushed out of the campsite.
- Coolers must remain secured at your campsite location.
- Alcoholic beverage consumption is prohibited on airport property, except in officially designated areas or under specific permission given by authorized EAA staff.

Check for additional camping guidelines at the registration building or visit EAA.org/AirVenture.

Fueling operations shall be done with the utmost safety in mind, in accordance with NFPA 407.

- Prior to initiation of fueling operations, the fueling vehicle and the aircraft to be fueled shall be bonded.
- No open flame, cooking stoves, or smoking is

- permitted within 50 feet of fueling areas.
- All fuel spills shall be reported immediately to the Oshkosh Fire Department.
- All fueling hoses shall be properly stowed prior to moving the fueling vehicle.

FIRE PREVENTION

City of Oshkosh Fire Department

Cooking stoves in transient aircraft camping areas:

- Do not leave campsite areas without completely extinguishing stove.
- No charcoal or wood campfires.
- Careful use of white gas or propane camp stoves is allowed in aircraft camping, provided they are in an area away from parked aircraft and that the stove is attended at all times.
- Cooking stoves must be a safe distance (10 feet) away from any aircraft.
- In the event that the conditions at Wittman Regional Airport and on the EAA grounds change drastically before or during the convention, additional restrictions on cooking stoves may be implemented.

When it comes to GA there's unmatched strength in the

POWER OF ONE.

For more than 50 years, Covington has remained true to the power of one. We are one family. Servicing engines from one manufacturer. With one guiding commitment: To build our company one relationship, and one engine, at a time. And, as the one and only family-owned Pratt & Whitney Canada factory-designated overhaul facility, no one knows the PT6A better, nor delivers more uncompromising support. All with a level of trust and compassion you simply won't find anywhere else. Call or visit us today. It would be our privilege to put the power of one to work for you.

Wing⁷ On-demand drone delivery

Wing is an aviation company that provides drone delivery as a faster, safer, and cleaner way to transport everyday goods. The company has built a small, lightweight, electric aircraft that can deliver food, medicine, and household items directly to homes in minutes. Since 2012, Wing has safely completed more than 350,000 commercial deliveries in North America, Europe, and Australia.

SAFETY Wing has flown more than 350,000+ flights to confirm the safety of our operations — safety is our highest priority.

PRIVACY There is no live feed of any imagery to anyone, including pilots overseeing operations. Cameras on board are low-resolution.

ENVIRONMENTAL When a customer orders a box of pasta from Wing, they use more energy boiling the water than we use delivering the product.

SERVICE Customers typically receive their orders in 30 minutes or less.

CONGESTION Drone deliveries can replace some trips to the store, meaning fewer vehicles on the roadways and less traffic on local streets.

ECONOMIC Drones can help connect businesses and customers, enabling local shops to expand their footprint for delivery and serve a wider population.

CERTIFIED Wing holds a Part 135 Air Carrier Certificate, which is the same level of certification as many commercial airliners.

Imagine a Career You Love!

Working as an airline pilot is not only a great way to earn a living—it's fun.

Talk this week with members of the Air Line Pilots Association, Int'l (ALPA), the largest airline pilot union in the world, about how you can get started.

*We're located at **booth #329** just blocks from Boeing Plaza.*

#ALPAatOSH24 #ClearedtoDream

Visit **alpa.org/oshkosh** for a list of this week's daily ALPA presentations and scheduled activities.

Also check out **clearedtodream.org** with tips and resources for aspiring airline pilots.

ABSOLUTELY ICONIC

UNMATCHED SPEED

Excellent aerodynamics enable all Risen models to achieve record breaking performance with very high economic cruising speeds unmatched by any other competitor

CUTTING EDGE TECHNOLOGY

State of the art aircraft with all carbon structure and glass cockpit with touch avionics and autopilot

COMFORT AND LUXURY

Unmatched majestic panoramic views and comfort on long flights thanks to a spacious cabin with a glass canopy and ergonomic leather seats

VISIT US AT **BOOTH 193**

The Risen creates a new aircraft segment that cannot be compared to any conventional aircraft. Its aerodynamics and state of the art technology allow it to harness the power of Rotax naturally aspirated and turbo-injected engines with the highest efficiency and performance on the market, enabling very high cruising speeds with the lowest fuel consumption. But the Risen also stands for comfort and luxury, with a spacious and ergonomic cabin, an electric canopy, glass-touch avionics, and superior lines and design. Porto Aviation Group Spa is listed on the Milan Stock Exchange (PAG) and its shares are freely traded in the Euronext Growth Milan segment, aimed at SMEs with high growth potential.

WHAT TO SEE AND DO

There is so much to see and do at EAA AirVenture Oshkosh 2024 — forums, workshops, air shows, movies, and more. Whether you are here for the day or for the whole week, use this schedule to get the most out of your visit.

NOTE: Check the *AirVenture Today* newspaper, the EAA Events app, or EAA.org/Schedule for schedule changes and updates.

All presentations from Saturday, July 20, to Sunday, July 28, are organized by day and time. Each listing provides the speaker(s), location, and AirVenture grounds map coordinates (see the AirVenture map on pages 70 and 71) to help you find your way.

Aviation Gateway
Park is presented by

AVIATION GATEWAY PARK™

AT EAA® AIRVENTURE® OSHKOSH™ 2024

Aviation Gateway Park is **your headquarters** for education, careers, and networking with aviation companies and industries.

EAA AeroEducate™ Center

Learn how students in grades K-12 can engage with the world of aviation during and after AirVenture! With AeroEducate, EAA's free, online education program, students from 5-18 years old can explore more than 200 activities designed to introduce them to aviation and aerospace career opportunities.

EAA Education and Career Center

Presented by Piedmont Airlines

The EAA Education Center will feature colleges, universities, and technical schools that offer programs in aviation and STEM-based curriculum. Attendees are also able to network and interview with a variety of leading aviation companies and organizations with aviation-focused career opportunities.

EAA Career Center

Presented by Air Wisconsin Airlines

If you're an aspiring aviator looking to network and interview with a variety of leading aviation companies and airlines, this is where you belong. Navigate your way into the aviation industry at the EAA Career Center.
